I'm hoping you all research and look into the information below and always remember your oath office office . We are all human .

Studies are now showing that there has been a 364% increase in delayed speech in children due to the wearing of face masks. It's as if the CDC has waged war against our children in America. The recommendation and enforcement of mask mandates and the approval of harmful shots for our children by the CDC has done much damage and harm to our future leaders and nation builders. When will America wake up and defend our children? What is the CDC's agenda against kids?

I am reaching out to you in hopes this will move the needle in getting our park / town back and should be taken seriously, fines could go into the millions which we can't afford as a city. Below you will see what forms that can be submitted if Nancy Young and Team don't fix this problem immediately. I am speaking as a concern Property owner/ Taxpayer. As for the Homeowners that back up to this park they could create this nightmare. Investigation isn't fun which the EPA will conduct.

The solution to fix this problem would be enforce no camping rules, second make El Pescadero Park a park that can be rented with this change anyone can rent this park in key areas which come with "Rental" agreement rules like no trash, no loud noises/music, a curfew for occupation etc., third move the donation station away from this area which enables this culture. Please pass this on so that change may happen.  
Thx signed Fed Up.

# Report Environmental Violations

[\[En español\]](#)

**Some users are experiencing issues related to user validation on the ECHO Report Environmental Violation form. If you receive a "Verification Expired" message, please try to submit your report again. EPA is working to resolve the issue. Please note that there is a limit of three report submissions per 24-hour period.**

Use this page to report what appears to you as a possible violation of environmental laws and regulations. Information you submit will be forwarded to EPA environmental enforcement personnel or to the appropriate regulatory authority. [More Information](#). Please provide as much information as you can in the form below. Asterisks (\*) indicate required fields.

**If you are seeing an environmental event that may lead to an immediate threat to human health or the environment, call [911](#), then report it to the [National Response Center](#) at: [1-800-424-8802](#).** Learn the difference [between a possible violation and an emergency](#).
