Hello,

Statutes, also known as acts, are laws passed by a legislature. Federal statutes are the laws passed by Congress, usually with the approval of the President of the United States of America. We live in a time in America that trickle down politics from either the three branches of government, is the pride of our nation, provided by central, state, and local governments to its agencies. As a Filipino-American, I was raised in a Catholic home that kept my younger brother and I that when we were aware of situations we could not fix we catered to raise our own awareness that shouldn't be hidden in any forms or in the shadows. Obamas' presidency begun the future that felt certain but how the parties looked at one another gave support in crucial time that took a minstrel place that in any level of creativity and idealistic perseverance a story was untold.

If you don't see how, and that a story matters; even from a small town, chances are no one else would either. So even though it isn't always so, it's important for Americans to find the strength to share my truth. Because the world needs to hear it.

Subject: Park name for Raymond Morelos

Greetings,

We'd like to express our support in the naming of the park to Ray Morelos.

Raymond was a 4th generation Tracyite.

He was the 1st Mexican/American elected to the Tracy City Council.

Raymond had 50 years of serving many committees in Tracy and was a role model for many.

It would be a great tribute and honor to have a Raymond Morelos Park.

Thank you for your time,

Raymond P Morelos Jr Park

Ray gave service, from his time as a USMC Marine to running a local business owner for over 30+ years, he dedicated his life to our home town. Ray served on countless boards, was a part of many programs and helped create scholarships and was an impact to many generations.

Naming a park in his honor would allow the city to thank him for his service and be a forever reminder, that Mr. Morelos legacy of community work will continue to live on in the lives of the future generations to come.
