	Nature Park: The Nature Park is now considered a Measure V major amenity project as a "future funded" in 2030 outside the five-year CIP Outlook. There is approximately \$375,000 in the budget from the Swainson's Hawk Habitat Mitigation Fund that can be used for initial planning this project. Staff is still working on determining if this funding can be spent on design and/or construction. Also, there may be an opportunity to utilize other community benefit funds in the amount of \$200,000 from the Holly Commerce project. Should Council decide to allocate this community benefit money, staff can return with options for project planning that may include, amongst other things, partnering with a nursery to purchase and maintain tree seeds for future use contract grow trees for the project. This strategy is common practice for landscape projects that have long timeline for completion or site conditions that do not allow for trees to be planting for a substantial amount of time.
