Subject: Access to the FBI criminal database

The police have made comments that they do not know when they will gain access to the FBI criminal database so that they can complete the Federal Background Checks for Cannabis Retail employees etc. I am asking that the council get a memo from the police that shows any communication from the DOJ on this access. After doing some research I found the DOJ has requirements that states must comply with before this access can be granted.

<https://www.justice.gov/opa/pr/justice-department-announces-update-marijuana-enforcement-policy>
<https://www.justice.gov/iso/opa/resources/3052013829132756857467.pdf>

California has complied with these changes through the Bureau Cannabis Control but they do not require background federal background checks for employees only the owners of the businesses, which they do before the state issues the Cannabis license to the business.

The City of Tracy is going beyond state regulations for federal background checks on all employees and in doing so has created a significant cost to the Cannabis Retail Storefronts in monthly rents on their properties (a CUP requirement is that these business owners were required to have a signed lease agreements showing the exact location before submitting an application to receive their CUP). Therefore, these owners are paying large monthly rents without any indication of when our city will gain access to the DOJ database so that our police can preform federal background checks on all employees.

I am asking that the City of Tracy place a temporary change to this requirement which will allow these businesses to open and when the City of Tracy Police receives this database access they at that time can begin requiring the federal background checks on all employees, and until that time the city will preform the state background checks on every employee. To date these businesses have paid over a quarter of a million dollars in rents and I do not think this makes our city business friendly nor fair to ask for a business to enter into a rental agreement without knowing when they can open their business to this new emerging industry.

Subject: Public comment for tonight's meeting

Re: environmental sustainability Commission

Hello my name is Jenny Wood and I work with Tracy Earth Project. Several months ago, we were told that the issue of creating an environmental sustainability commission would be on the City Council's agenda in November. Today is Nov. 1st and there is one item on the agenda besides the consent agenda. I am surprised that with only one other item that the issue of the sustainability commission isn't on the agenda.

I am sure you are all aware that we are in an existential climate crisis. This year's series of extreme heat waves is just one of many examples of the global weather-related disasters that are a result of continued rising temperatures because of human use of fossil fuels, deforestation, and devastation of other natural resources. Tracy needs to do our part to mitigate climate change and the first step is to set up a commission to ensure that the targets and measures in our Environmental Sustainability Action Plan are achieved.

I know you are aware of this Action Plan. I, however was not able to find any updates to our progress on this plan, despite the Implementation and Monitoring plan set forth in it, which says that "the City will create Work Plans for the implementation of the sustainability measures... (which) will identify sustainability measures that will be implemented within a performance period of two consecutive fiscal years." If these work plans, exist, I am not able to find them on the website. Tracy needs to be held accountable for our own actions. And the first step in that is to create a commission of staff and community members, of which I am willing to be, to ensure we are meeting and even exceeding our goals.

Since the issue of creating a sustainability commission was not on this November agenda, my question is can we expect it to be on the next agenda for discussion?

Nurses are an investment not an expense.

Please don't allow Sutter Health to lower standards of care at our hospital.

We need Nurses to stay.

We ask Sutter health to fill all vacancies now. We must stop short staffing departments that can cause nurse fatigue, exhaustion, injury, and error. Understaffing critical units like the Emergency Room leads to long wait times and hundreds of patients a month leaving without being seen by a provider.

STCH needs to stop jeopardizing patient care.

STCH must attract and retain experienced nurses with a dignified and competitive wage and staff units to fulfill patient care needs and not budget expense sheets.

Nurses are not an expense, they are an investment.

We ask Sutter Tracy Community Hospital to invest in their Nurses AND invest in their community and build our new hospital.

TRACY RESIDENTS DEMAND SUTTER HEALTH TO INVEST IN THEIR COMMUNITY NOW.

Nurses are an investment not an expense.

Please don't allow Sutter Health to lower standards of care at our hospital. We need Nurses to stay.

We ask Sutter Health to fill all vacancies now. We must stop short staffing departments that can cause nurse fatigue, exhaustion, injury, and error. Under staffing critical units like the Emergency Room leads to long wait times and hundreds of patients a month leaving without being seen by a provider. STHC needs to stop jeopardizing patient care.

STCH must attract and retain experienced nurses with a dignified and competitive wage and staff ratios to fulfill patient care needs and not budget expense sheets.

Nurses are not an expense, they are an investment.

We ask Sutter Tracy Community Hospital to invest in their Nurses AND invest in their community and build our new hospital.

TRACY RESIDENTS DEMAND SUTTER HEALTH TO INVEST IN THEIR COMMUNITY NOW
