Subject: Closure of Hansen Road

Due to the Prologis warehouse developmet on Hansen Road south of Highway I-205, the community of Lammersville has been experiencing dangerous illegal truck and car traffic on Hasnen Road North of Highway I-205. San Joaquin Couny is addressing these issues by closing Hansen Road at the I-205 overpass with automated gates that allow for emergency vehicle access. We request that the City of Tracy support and approve this action in coordination with the County, Prologis and Emergency Responders.

Thank you for your attention to this matter.

Dale and Patricia Brandes

My name is Jake Ivester.. I have lived in Santos Ranch for 36 years. Escalating non resident traffic through our community has been an ever increasing issue for a number of years. As traffic congestion has increased on Highway 205 over the years more and more Bay Area commuters have used Von Sosten and our residential streets as a cut through to Hansen Road to avoid Highway 205. With the warehouse buildout that began around 2014, not only did we have to bare the burden of Bay Area cut through traffic, but then we started to see an ever increasing number of warehouse worker traffic, box trucks and a large number of 40 ton semi big rigs cutting through our neighborhood, all hours of the day and night, ignoring stop signs and the 25 mile per hour speed limit to get to Hansen Road to get to the warehouses south of Highway 205. This constant flow of commuter and warehouse traffic through our community degraded our quality of life and was outright dangerous to the citizens of Santos Ranch, Los Ranchos and Currier Estates.

The resent closing of South bound Hansen Road between Von Sosten and the 205 over crossing has reduced the traffic cutting through our neighborhood but has created a very dangerous situation. There is a significant number of cars, box trucks and semi big rig trucks that ignore the one way southbound restrictions on Hansen Road and proceed south blindly over the 205 over crossing in the northbound lane.

The only sure way to fix this very dangerous and potentially life threading traffic hazard is for a full closure of Hansen Road at the base of the 205 over crossing.

Thank You
