Agenda Item 3.A

RECOMMENDATION

Staff recommends the Tracy Homelessness Advisory Committee receive an informational update regarding homeless services and the Temporary Emergency Housing Facility project.

EXECUTIVE SUMMARY

This informational report provides an update on the City of Tracy's efforts to address the impacts of homelessness and quality of life issues in the community, including an update on the City's emergency interim shelter activities.

BACKGROUND AND LEGISLATIVE HISTORY

The 2022 [San Joaquin Continuum of Care Point in Time \(PIT\) Count of Sheltered and Unsheltered Homeless](#) reflects 124 unsheltered homeless individuals living within Tracy's city limits. Recognizing the importance of responding to quality-of-life issues, including the human services needs of the City's unsheltered population, the City has devoted significant resources toward addressing the impacts of homelessness within the community. Staff continues to coordinate efforts between various departments to conduct bi-weekly clean-ups of public spaces, foster partnerships with non-profit organizations to share information on services and programs with the unsheltered, secure grants to support homeless services, and continue with the construction activities of the Temporary Emergency Housing Facility. City staff has worked vigorously to balance the circumstances of the unsheltered, as well as the needs of the community.

Pursuant to Council's reaffirmation of the emergency shelter crisis in August of 2022, the City Manager authorized staff to identify permanent and emergency alternative housing options for the unsheltered population within the city limits. This effort not only focuses on the housing and support, but also to prepare the residents for self-sufficiency. As a result, the development of a "Campus Concept" emerged where temporary housing and Supportive Services would be provided to the unsheltered population.

ANALYSIS

Outreach Update

The City's homeless outreach efforts focus on our most vulnerable unsheltered populations who are experiencing homelessness. This includes, but is not limited to, transitional-aged youth (aged 18-24), veterans, the LGBTQ+ community, victims of

crime and those with behavioral health needs. The 2022 Tracy PIT data reflects two transitional-aged individuals, six veterans, and at least 30 unsheltered individuals with behavioral health issues counted. The Homeless Services Division has identified a need for additional supportive services within the system of care for our elderly and disabled population - most shelter guests are over the age of 54. We are working closely with our managed care plans to implement additional support services for this vulnerable population. The Homeless Services Manager works closely with the Hospital Council across both San Joaquin and Stanislaus Counties through focus and work groups targeting more support and awareness to our growing sub population of elderly and disabled unsheltered residents.

Encampment Outreach Activities

Weekly checks of former encampment sites located on Union Pacific (railroad) and Caltrans properties, as well as parks, city property and private property were conducted this month.

One large encampment on private property (Paradise and Pescadero) was identified and the property owner was notified and advised on how to properly post the property for "Private Property/No Trespassing." The property owner was also provided with a trespass form to complete and provide to Tracy Police Department so they can enforce trespassing violations on the owner's behalf, and require violators vacate the property. The signage has been posted, but the completed trespass form has yet to be received. Code Enforcement also sent a letter to the property owner to have the property abated and cleaned up.

A smaller encampment was also located on private property (330 W. Grant Line Rd.) Code Enforcement is working with the property owner to secure a trespass letter and abate the property. The property owner was also notified that the area would need to be posted "Private Property No Trespassing," and the property would need to be re-secured with new fencing.

Areas of El Pescadero Park are being fenced off as a precautionary public safety measure to mitigate potential tree hazards, evaluate the safety and condition of the landscaping, and prepare for scheduled maintenance like tree trimming. El Pescadero Park has been selected as the site of a new multi-generation recreation center.

On September 26, 2023, encampments and hazards were removed at Detention Basin 5 (DB5)/Plascencia Fields located at 2200 Krohn Rd., by Tracy Police, Code Enforcement and Public Works personnel.

September 2023 Encampment Activities:

The Familiar Faces team, assigned to Tracy Police Department, is working with a consultant to ensure objectives are being met and adopting operating policies and guidelines for the development of a Homeless Response System within our city-wide efforts that supports our City's Homelessness Strategic Plan.

Temporary Emergency Housing Facility Design Update

The final draft Phase II bid documents, plans, and contract specifications are being finalized so the project can be advertised as soon as the required National Environmental Policy Act (NEPA) process is complete. The draft package was transmitted for review to Roebbelen, our new Construction Management team, who have been awarded an agreement for construction management services. Roebbelen's input will be considered for inclusion in the final bid documents.

Administrative Office Space

During the design phase of the TEHF project, administrative office space that exceeded the office space available in the primary site structure was added to accommodate City Homeless Services Department staff and outside service providers who would need space to meet with TEHF residents on site. A new modular office building was included in the initial project construction documents, and the price bid to furnish and install the building was nearly \$700,000. Recently, design staff learned that Boyd Service Center has several modular structures on site that had been declared surplus property. There is a 24' wide by 60' long modular building at Boyd that can be included in the design of the TEHF project.

The modular office structure is 1,440 square feet and contains two ADA-sized restrooms, a 170-square-foot conference room, five offices, a 192-square-foot reception area, and an area that was formerly a kitchenette. Operations reports that the building roof is in good condition and the HVAC units are in working order. The interior of the structure needs new flooring, and modifications are needed for the suspended ceiling and restrooms to meet current codes for accessibility. The data & communications system probably needs to be upgraded, but there are data ports in all of the rooms. The exterior envelope needs some refreshing and minor repairs. A prefabricated accessible ramp and stairs will also be required. The estimate for the work needed to refurbish the modular office building is \$250,000, and relocation costs would be about \$20,000. Refurbishing this existing City-owned structure would be a significant savings over the cost of a new modular building and would provide the additional critical office space.

Current Construction Activity

Phase IV: Underground work for infrastructure to the custom containers is nearly complete and concrete foundations for the security camera poles were poured last week. Work to improve the temporary access road is also underway. Some additional work was required to address modifications to the fire alarm and fire sprinkler systems. Concrete pads and security cages to prevent tampering were added at the locations of the backflow preventors. That work will be eliminated from the Phase II design work and will provide additional security to the fire alarm and sprinkler systems. An additional light pole is needed to ensure security camera coverage behind the temporary restrooms and showers, additional lighting will benefit the whole campus.

When completed, Phase IV will provide an additional 38 single occupancy rooms. Delivery of the first four units is currently scheduled for October 23, and staff is checking in with the vendor twice a week to stay current on the progress.

Phase II: The Phase II Site Improvements that include the sprung structure and the build out of all the site improvements will be advertised for bid as soon as the NEPA process is completed, and the federal funds are officially released for use by HUD.

If the NEPA process proceeds as expected, the required documentation from HUD should be received near the end of November. The construction bid documents will be ready for advertisement as soon as the NEPA process is complete. Currently the project architect and staff are preparing a draft set of bid documents for Roebbelen, the construction management consultant to review and provide comments on.

Agenda Item 3.B

RECOMMENDATION

Staff recommends that the Tracy Homelessness Advisory Committee recommend that City Council adopt a Resolution: 1) Authorizing the acceptance of a grant award from Health Plan of San Joaquin in the amount of \$595,000 to partially fund the continued operation of the Tracy Interim Shelter Site; and 2) Appropriating the total grant funds to the Mobility and Housing Department, Homeless Services Division budget.

EXECUTIVE SUMMARY

This item provides Council with an opportunity to receive a grant award in the amount of \$595,000 from Health Plan of San Joaquin for the Tracy Interim Shelter Site project (renamed Phase III and Phase IV of the Temporary Emergency Housing Facility). This grant is funded by Health Plan of San Joaquin County and is in support of providing additional housing options within specific geographic areas that do not currently have projects that support those experiencing homelessness and who are also Medi-Cal beneficiaries.

BACKGROUND AND LEGISLATIVE HISTORY

The Tracy Interim Shelter Site project (renamed Phase III and Phase IV of the Temporary Emergency Housing Facility) was authorized in August 2022 under an emergency shelter declaration to advance the needs to house the unsheltered in Tracy. On August 16, 2022, staff recommended that City Council reject the single bid received for the Temporary Emergency Housing Facility Project on Arbor Avenue, Site Improvements Construction Package 2 (renamed Phase II), CIP 71112, and authorize staff to re-advertise the project and rebid of the project. As this created a delay, the City Council adopted Resolution No. 2022-121 ("Resolution"), which reaffirmed an emergency shelter crisis as the City of Tracy continues to experience an increasing number of unsheltered individuals. Under this authorization, the City Manager entered into a five-year lease agreement for Modular Units and an Administration Unit, that will provide approximately 48 beds for individuals; and a one-year lease for generators. This project has been renamed Phase III of the Temporary Emergency Housing Facility. In addition, the City Manager purchased eight Custom Containers to provide approximately 38 beds for individuals. This project has been renamed Phase IV of the Temporary Emergency Housing Facility.

In May of 2023, Health Plan of San Joaquin met with the City's Homeless Services Manager to discuss additional funding availability for our Tracy Interim Shelter project. Health Plan of San Joaquin requested a proposal outlining the additional funding needs for the Tracy Interim Shelter Site project (renamed Phase III and Phase IV of the Temporary Emergency Housing Facility). In early June of 2023 the City was notified of the additional award in the amount of \$595,000 to fund additional needs at the Tracy Interim shelter site.

ANALYSIS

The Tracy Interim Shelter Site (renamed Phase III and Phase IV of the Temporary Emergency Housing Facility) project is part of the overall shelter campus project, parts of which are in various phases of design, development, and/or construction. This grant funding will be used to cover capital expenses, including the eight custom container units, existing modulars, and operating costs that will ultimately house up to 38 individuals. This project is intended to provide a site for those seeking shelter within the City limits. To that end, the City of Tracy will collaborate with the Health Plan of San Joaquin to provide additional resources and support to the City's unsheltered population as they are housed. Approval of this item will accept the grant.

FISCAL IMPACT

The Mobility and Housing Department, Homeless Services Division will receive \$595,000 in grant funds from the Health Plan of San Joaquin to fund the Tracy Interim Shelter Site. The \$595,000 grant is to be appropriated to the FY2022-23 Homeless Services division operating budget. No City match is required.

<u>Vendor</u>	<u>Summary</u>	<u>Not to Exceed Amount</u>
<u>PowerGen</u>	Generator monthly rentals and maintenance through May 2024	\$40,000
SC Fuels	February 2023 through May 2024 fuel costs	\$250,000
United Fence Services	Temporary fencing until permanent fencing installed	\$200,000
United Site Services	Temporary Rental of Restroom for Phase IV through May 2024	\$105,000
	TOTAL	\$595,000
