

CITY OF TRACY CITYWIDE MASTER FEE SCHEDULE

Proposed: May 21, 2024

Adopted: May 21, 2024

Resolution No.: 2024-077

Fee Implementation Date: July 1, 2024

Community and Economic Development Fee Effective Date: July 22, 2024

Introduction

The City of Tracy Citywide Master Fee Schedule ("Schedule") is a compilation of most fees charged by the City for services.

It is organized by department and does not include the following types of fees:

- Development impact fees adopted under the Mitigation Fee Act
- Mitigation fees (i.e. habitat mitigation, agricultural mitigation fees)
- Enterprise fund charges (water, sewer, storm water, airport, transit)
- Fees adopted under franchise agreements (cable franchise under TMC Chapter 8.10; franchise contractor for collection of solid waste, yard waste and recycling under TMC Chapter 5.20)
- Special District assessments
- Fines (imposed as penalties)
- Leases of City property and equipment
- Rates established by separate agreements (e.g., Tracy Joint Unified School District)

The Schedule data was reviewed and analyzed by NBS Government Group in FY 2021-2022 to confirm the appropriateness of fees and identify cost recovery levels. The Schedule will be updated annually, and most fees will be adjusted to reflect inflation. The rate will be based upon the San Francisco-Oakland-Hayward Metropolitan Area Consumer Price Index (December - December) rounded to the nearest dollar except where cents are already used. For Fiscal Year 2024-2025 the inflationary rate is 2.6%. The fees which are updated by some other method are indicated as such.

Public services may be classified as community-supported public services, such as police services. These are typically provided to the community as a whole and are supported by general tax dollars from the City's general fund.

Personal choice services are optional, such as taking a class, and are requested by the customer.

Property development services (requiring a building permit or land use entitlement) is done at the request, and for the benefit, of the owner. Fees are usually charged for these types of services, though some may be subsidized with general tax dollars when they have some social, safety, or welfare benefit.
