The Crisis Clinic is staffed with Mental Health Clinicians, Registered Nurses and Psychiatrists. Persons do not have to be in a "crisis" or an urgent condition to request our services. A triage evaluation by mental health professionals determines the level or urgency or crisis and the appropriate course of intervention.

Hospitals providing medical care may call Crisis Services to request a crisis evaluation for any person at the hospital who has already been medically cleared (ready for discharge), and who may be a danger to self, others or gravely disabled due to a mental disorder.
