**RE: APPROVAL FOR CONTROLLED ACCESS GATE AT BLACKSTONE DRIVE  
(REDBRIDGE)**

Dear Owners Association/Board of Directors/Task Force:

With reference to your letter of July 29, 2005 regarding the referenced project, the location and type of gate is approved as requested. Please make sure your contractor obtains a permit from the City Building Division for electrical connection before starting any work after paying the permit and inspection fees.

Please also coordinate with both Tracy Fire and Police Departments immediately after installation of the gate for their inspection and use of the storbeswitch access operation.

Should you have any questions or need further information, please feel free to call me at (209) 831-4432.

Sincerely,

  
Kul Sharma  
City Engineer
