

Important to note that when Mr. Connolly speaks about criminal behavior, he is not exaggerating

**Regarding Mr. Churchill:**

- Violated Tracy Municipal Code
- Repeatedly provided false information to Council
- Directly violated this Council's instructions regarding the scope of external investigations of misconduct

Of greater concern:

- Knowingly generated false writings – a criminal violation of the GC
- Clear cause to believe he has post-dated City records – another criminal violation of the GC
- Refused to perform investigations of complaints of police misconduct -- a criminal violation of the penal code. He has since repeated this behavior by failing to appropriately investigate allegations of criminal misconduct against Mr. Hampton
- When forced to "investigate" complaints he lied explicitly in his disposition, behavior which he has since repeated in the context of his disposition of the complaint against Mr. Hampton.

Mr. Hampton has excused Mr. Churchill violation of law as due to his lack of familiarity with CA law. That's what we have Mr. Sodergren for, though he has shown himself to be equally negligent and dishonest. Most notably:

- He has clearly and directly refused, in these chambers, to comply with the CA Penal Code regarding investigation of police complaints
- Failed to enforce mandatory record keeping requirements imposed by the Penal Code
- Failed to comply with several aspects of the Brown Act and the Public Record Act. I am currently preparing a Grand Jury complaint on this topic, demonstrating a pattern and practice of non-compliance with requests by multiple parties.
- Allowed the release of RGA's to Surland Co. in direct violation of a Court order.

• *wasted*  
In summary, he has demonstrated outright contempt for the law on multiple occasions.

At some point, when you fail to enforce CA law, as you have each sworn to do, despite clear knowledge that the law has been broken, you not only violate your oaths but your actions become criminal. This isn't going to just go away and I will be reviewing these allegations in the months ahead. If you want me to shut up and go home, there are only two ways to accomplish it: either by removing these individuals from public service or by ordering a thorough independent investigation of Mr. Churchill and Mr. Sodergren with full public disclosure of the results. Such disclosure is entirely consistent with CA law.
