NOTICE OF SPECIAL MEETING

Pursuant to Section 54956 of the Government Code of the State of California, a Special meeting of the **Tracy City Council** is hereby called for:

Date/Time: Tuesday, April 16, 2019, 6:00 p.m.

(or as soon thereafter as possible)

Location: Council Chambers, City Hall

333 Civic Center Plaza, Tracy

Government Code Section 54954.3 states that every public meeting shall provide an opportunity for the public to address the Tracy City Council on any item, before or during consideration of the item, however no action shall be taken on any item not on the agenda.

- 1. Call to Order
- Roll Call
- 3. Items from the Audience In accordance with Procedures for Preparation, Posting and Distribution of Agendas and the Conduct of Public Meetings, adopted by Resolution 2015-052 any item not on the agenda brought up by the public at a meeting, shall be automatically referred to staff. If staff is not able to resolve the matter satisfactorily, the member of the public may request a Council Member to sponsor the item for discussion at a future meeting.
- 4. RECEIVE REPORT AND PROVIDE DIRECTION ON PROPOSED FY 2019-20 CAPITAL IMPROVEMENT PROGRAM (CIP) BUDGET
- 5. Adjournment

Mayor

Thursday, April 11, 2019

The City of Tracy complies with the Americans with Disabilities Act and makes all reasonable accommodations for the disabled to participate in public meetings. Persons requiring assistance or auxiliary aids in order to participate should call City Hall (209-831-6105), at least 24 hours prior to the meeting.

Any materials distributed to the majority of the Tracy City Council regarding any item on this agenda will be made available for public inspection in the City Clerk's office located at 333 Civic Center Plaza, Tracy, during normal business hours.

AGENDA ITEM 4

REQUEST

RECEIVE REPORT AND PROVIDE DIRECTION ON PROPOSED FY 2019-20 CAPITAL IMPROVEMENT PROGRAM (CIP) BUDGET

EXECUTIVE SUMMARY

The purpose of this study session is to provide City Council with an overview of the Proposed FY 2019-20 Capital Improvement Program (CIP) Budget. The Capital Improvement Plan (CIP) budget is an essential part of the overall City Budget document and plays an integral role to strategically plan for the community's capital improvement needs.

DISCUSSION

The Fiscal Year (FY) 2019-20 CIP Budget process began in January 2019 at the staff level. Finance staff has been diligently working with all departments on the CIP Budget since then, refining existing CIP projects to ensure projects are financially feasible and adequately represent the most needed capital improvements over the upcoming fiscal year.

The CIP Budget provides detailed information for each capital improvement project proposed in FY 2019-20. The project detail sheets include a description, the project manager, customers served, a brief justification, projected beginning and end dates, as well as the estimated project cost. Since many capital improvement projects take more than one fiscal year to design and construct, developing the project detail sheets allows City Council to better forecast and anticipate upcoming citywide capital improvements.

The CIP budget proposed is comprised of current projects only, with the exception of the Police Department Range project. Current projects are those that have not yet been completed and were funded in prior fiscal years. If any of those projects require additional funding to be completed, it is noted in the year in which the funding is proposed.

The CIP is organized into groups by the type of project. Groups include:

- Group 71: General Government and Public Safety Facilities
- Group 72: Traffic Safety
- Group 73: Streets and Highways
- Group 74: Wastewater Improvements
- Group 75: Water Improvements
- Group 76: Drainage Improvements

- Group 77: Airport and Transit Improvements
- Group 78: Parks and Recreation

The majority of CIP projects are funded through funding sources that have unique limitations. Special Revenue Funds receive special revenues, which are legally restricted for specific purposes. For example Gas Tax monies must be spent on roadway and traffic safety improvements. Capital Projects Funds also support a number of CIP projects, which are funded through development impact fees. Development impact fees are collected in various areas of the City, such as the Tracy Improvement Master Plan (TIMP) or Ellis Specific Plan and provide funding for infrastructure improvements associated with a particular development. These funds must be spent on the projects that were identified in establishing the fee.

Likewise, Enterprise Funds, which support water, wastewater, drainage, airports and transit services, can only be spent on projects specifically associated with the funding source.

CIP projects can also be funded through Internal Service (IS) Funds. Revenue acquired through the IS Fund is accounted for by charges to City Departments for city-wide services that support most City programs, including information technology, building maintenance, risk management, and equipment replacement.

CIP projects are also supported through other funding sources, which may be comprised of developer contributions and various local, state, and federal grants.

As mentioned earlier in the staff report, the Police Department Range project is the only new project being proposed. This project aims to replace the existing prefabricated classroom that is currently in poor condition due to age. This project will provide a new 48' x 60' prefabricated classroom at the existing range facility. The new structure will allow classroom training facilities for approximately 50 officers at one time. The goal of the new facility will be to cost recover the investment into the project by renting it out to surrounding public safety agencies. This project has a proposed budget of \$600,000 which includes a \$200,000 contingency. The contingency amount is proposed to be Measure V funded and to only be used if the project exceeds the \$400,000 identified in other funding sources.

The Measure V project prioritization discussion will come before council separate from the FY 2019-20 CIP budget process. The pay as you go discussion for Measure V funded projects is anticipated to bring forth timelines and a prioritization for future amenities and projects within the City.

The City is continuously faced with the question of how to maintain the existing quality of its infrastructure to the satisfaction of residents. Staff plans on updating the Five-Year

Agenda Item 4 April 16, 2019 Page 3

Capital Improvement Program in the 4th quarter of 2019. This future workshop will take into account the updated master plans and aide in identifying key focus areas in order to continue to be proactive and prudent in Capital management.

Staff believes the Proposed FY 2019-20 CIP Budget represents a responsible fiscal plan that addresses the City's infrastructure needs for the next fiscal year and also addresses the sustainability and conservation efforts that are so critical today, while planning for long-term continued management of the City's capital assets.

STRATEGIC PLAN

This agenda item addresses Goal 2 of the Governance Strategy to ensure fiscal sustainability through financial and budgetary stewardship.

FISCAL IMPACT

This is a study session only. City Council will be requested to adopt the FY 2019-20 CIP Budget at its June 4, 2019 meeting.

RECOMMENDATION

It is recommended that the City Council receive this report and provide direction on proposed FY 2019-20 Capital Improvement Program (CIP) budget.

General Government Public Safety Facilties Retrofit Water Tower 6th St 71027

Description: Renovation of this Tower is necessary to protect against

corrosion. Need to strengthen foundation and replace

inflow pipes.

Project Manager: Matthew Brown

Customers Served: Business Residents Tourists/Visitors

Justification:

Due to the history of the construction of this tower, and the past representation, this tower must be protected and kept as a monumental structure for the City. Water Tower foundation and structure needs to be renovated for corrosion.

Comments:

Civic Center Water Tower (CIP 71080) was renovated in 2016 at a cost of \$162,000. This Tower is anticipated to have a similar scope but with the addition of the removal and reinstallation of cellular phone equipment which may drive the cost of this project up 30% to \$210,000

Begin Date: 2018/2019 **End Date:** 2020/2021 **Project Budget:** \$ 210,000

Project Schedule	Exp	ended	FY	2019/20	FY2020/2	21	FY2021/22	FY2	022/23	Un-Funded	Total

General Government Public Safety Facilties Public Safety Communications Equipment 71050

Description: Construction of a new 180 foot communications tower and

radio equipment shelter/structure and generator.

Project Manager: Matthew Brown

Customers Served: City Services

Justification:

With the expansion of the police facilities incorporating a new facility at Corral Hollow & 11th St, it will be necessary to include as part of that project, a new 180' communications tower. This tower will provide for communication needs as the City develops to the south and west. The San Joaquin County Inter-Operability Communications agreement, of which we are a signatory, calls for the "Narrow Banding" of our current UHF frequencies and an additional frequency load on the system as all San Joaquin Agencies' frequencies will be transmitting and receiving at this tower.

Comments:

This CIP is currently under construction anticipate construction complete in October 2019.

Begin Date: 2017/2018 **End Date:** 2019/2020 **Estimated Project Cost:** \$ 640,000

General Government Public Safety Facilties Council Chamber Audio/Visual Systems 71089

Description:

The existing audio and visual (AV) system located inside City Hall, Council Chambers was installed approximately eight years ago and is now reaching its service life, through evidence of monthly technical failures and ongoing maintenance demands. Staff is proposing an upgrade of the following systems in the Council Chambers and the AV Control Room: Master Control System (Crestron), video cameras, audio systems, projector, video cables, web streaming software, wireless technology integration, playback and recording equipment.

Project Manager: Matthew Brown

Customers Served: City Services

Justification:

City Hall, Council Chambers is used on a continual basis to conduct various community meetings, including: City Council, Commissions, public hearings, etc. In order for the City to provide reliable and consistent filming and airing of public meetings, the AV system requires a upgrade. In addition, the existing system is out of warranty and the majority of the AV equipment has become obsolete. Each month, staff is having to trouble shoot technical issues related to the Master Control System which is becoming cost prohibitive. These technical interruptions are also causing disturbances during live recorded meetings, which have also resulted in viewer complaints.

Comments:

City Hall, Conference Room 203 is connected to the Council Chambers Master Control System (Crestron) and will need to be upgraded simultaneously. There will be minimal impacts to filming public meetings during system upgrades and maintenance, as a mobile filming/production station will be used. Funding for this project will come from the CTV/PEG Fund. RFI was opened 3/2/19 project to be complete July 2019

Begin Date: 2017/2018 **End Date:** 2019/2020 **Estimated Project Cost:** \$ 650,000

General Government Public Safety Facilties Public Works Facility Renovation Ph 2 71091

Description: Public Works has an immediate need to renovate

antiquated shop facilities at the Boyd Service Center. There is a dire need to construct new work shops, restrooms, lockers and add showers for front line staff.

Project Manager: Matthew Brown

Customers Served: City Services

Justification:

Renovations will allow the yard to meet increasing maintenance workloads, as well as, add workable shop areas, restrooms, showers, and a locker room. Showers are needed for front line staff who work on sewer repairs and other hazardous work environments.

Comments:

Design started in 2008 and is part of a phased approach. Ph 1 (Adm Ofc) was completed in FY13/14. This CIP will fund Ph II which will convert building B (old Adm Ofcs) into usable shops, restrooms with showers, and storage area. Currently under construction bids opened in May 2018. Major renovation to prior design resulting in large change order of \$744,000

Begin Date: 2017/2018 **End Date:** 2019/2020 **Estimated Project Cost:** \$ 2,004,956

General Government Public Safety Facilties Fire Training Tower at NEI Reservoir 71109

Description: A fire department training tower site for site improvements at

NEI reservoir. The project involves the grading, fencing, and site work associated with the improvements on the NEI reservoir site to allow for the installation of a Fire Training Tower. The project currently fulfills the obligations to terms of a FEMA funded grant awarded to the Fire Department.

Project Manager: Matthew Brown

Customers Served: City Services

Justification:

Over the last 10 years, the numbers of fires and fire deaths have gradually declined and the number of EMS incidents have increased. Demanding EMS training has become a strength in the fire service. However, fewer fires equates to firefighters not receiving the same level of training for actual firefighting. To ensure our high standards for firefighting are met, it is essential we provide everyone with continued hands-on training to acquire or sharpen skills. It is essential that we assign the same high standard of continuing education we place on EMS training to firefighting as well.

Comments:

Project in design. Cost splitting with San Joaquin Rural Fire District. City portion \$250,000.

Begin Date: 2018/2019 **End Date:** 2019/2020 **Estimated Project Cost:** \$ 450,000

General Government Public Safety Facilties Police Department Gun Range 71110

Description: Provide a new 48' x 60' prefabricated classroom at

existing range facility. New classroom to have one large room and one office area. Project will require grading to existing site and requires electrical service modification.

Project Manager: Matthew Brown

Customers Served: City Services

Justification:

Existing Prefabricated Classroom is falling apart due to age. The new structure will allow classroom training facilities for approximately 50 officers at one time.

Traffic Safety Adaptive Traffic System - 11th Street 72098

Description: Up

Upgrade existing traffic signal controller and provide high speed communication system for the corridor and provide system components to implement adaptive signal corridor system. Also, provide CCTA cameras at key locations to provide traffic information to Traffic Control Center.

Project Manager: Anju Pillai

Customers Served: Residents

Justification:

Improve traffic flow on 11th Street corridor. Replace number of stops and delay to vehicular traffic and thereby improving congestion and environment.

Comments: Awarded CMAQ Grant from SJCOG for \$701,250 12/17/2012, CTIPS ID: 212-0000-0597

Traffic Safety Intersection Improvements - Corral Hollow & Linne 72104

Description: Installation of fully activated pedestrian and vehicular

traffic signal. Intersection improvements include railroad

crossing improvements.

Project Manager: Anju Pillai

Customers Served: Residents

Justification: To improve traffic flow.

Comments: Intersection improvements will include installation of traffic signals, traffic signal interconnect, widening of roadway

and installation of curb, gutter and sidewalk.

Begin Date: 2000 End Date: 2021/2022 **Project Budget:** \$ 1,500,000

Traffic Safety Replacement of Traffic Loops 72111

Description:

Installation and replacement of traffic signal loops at

various signalized intersections.

Project Manager:

Anju Pillai

Customers Served:

Residents

Justification:

Loops in some locations are damaged or have become insensitive and are not detecting vehicles and need to be replaced. Traffic signals not working efficiently may not permit movements and can result in motorists running red lights. In the interim, these signals are on a fixed time cycle which creates delays.

Comments:

Streets and Highways New Interchange - I-205 & Lammers Road - Ph I, EIR Study 73084

Description: Construction of new interchange, including ramps, to

provide access to north and south side of Tracy. Ph 1 - EIR document was completed in 2012. Currently staff is working to revalidate EIR per Caltran request. (2019/20)

Project Manager: Zabih Zaca

Customers Served: Residents

Justification: Construction of new interchange to accommodate new development and improve

traffic circulation. Future phases funded by Gateway & other new development.

Comments: This project is under study for environmental issues and consideration of Federal Highways Administration.

 Begin Date:
 2004 End Date:
 2020/2021
 Project Budget:
 \$ 858,000

Streets and Highways Widening - Corral Hollow, 11th to Schulte 73103

Description: Widening from a 4-lane arterial to a 6-lane major arterial

which includes modification of existing 40' median to accommodate 2 traffic lanes. Median modifications include new landscaping, irrigation system and installation of new railroad crossing arms.

Project Manager: Zabih Zaca/Paul Verma

Customers Served: Residents

Justification: This is required by the City's Road Master Plan.

Comments: RR Crossing work completed Sep 12. Modifications of median on Corral Hollow Rd., CIP 72086 must be done

with conjunction with this project. Roadway design is 90% complete.

Begin Date: 2007 **End Date:** 2022/2023 **Project Budget:** \$ 5,779,000

Streets and Highways I-205 @ Chrisman Rd Interchange 73109

Description:

Construction of new interchange, including ramps, to provide access to the northeast and southeast areas of Tracy. Ph I: Project study report - FY10-12; Ph II: EIR - FY13-15. Ph III: Design - FY15-18; Ph IV: Construction - FY19-22.

Project Manager: Zabih Zaca

Customers Served: Business Residents Tourists/Visitors

Justification:

The construction of this new interchange is to accommodate new industrial development and northeast developments. The cost of the project will be shared by the City of Lathrop. Federal funding of \$800,000 is already appropriated for this project in the Congressional budget.

Comments:

Project is in the planning stage. Consultant will be on board for Project Study Report (PSR) in March 2012. The General Plan identified this project as a new interchange. Coordination with City of Lathrop and CalTrans regarding interchange location in progress. Ph 1 - PSR, including selection of alternative; Phase II - EIR; Ph 3 - Final design; Ph 4 - construction. EIR is under review, completion by 2020.

Streets and Highways Cherry Blossom Ct Pedestrian 73172

Description: The scope of work for this project will include

construction of a sidewalk and associated landscaping in the existing corridor between Middlefield Drive and

Cherry Blossom Court.

Project Manager: Al Gali

Customers Served: Residents

Justification:

The residents of Cherry Blossom Court and Middlefield Drive have submitted a request to provide pedestrian connectivity and associated landscaping along the end of the cul- desac bulb of Cherry Blossom Court and eastern edge of the Middlefield right-of-way. The requested improvements will provide pedestrian access from Cherry Blossom Court to the Middlefield Drive in a landscaped area.

Streets and Highways Roadway Master Plan 73173

Description: The City of Tracy Citywide Roadway and Transportation

increased.

Master Plan was updated in November 2012. Since 2012, the assumed grown pattern has varied from the actual pattern, new infrastructure has been installed consistent with the master plans, and construction costs have

Project Manager: Zabih Zaca

Customers Served: City Services

Justification:

The current Citywide Road and Transportation Plan should include the Bikeway Master Plan in the document. Changes in state law, including Senate Bill 743, now require agencies to use a new metric to analyze traffic impacts to keep in conformance with environmental requirements. This new metric is VMT (Vehicle Miles Traveled). This project to update the Transportation Master Plan will include analysis and recommendations for the City to keep current with the new VMT metric.

Comments:

The City consultant is working on this project and the completion of the final document is anticipated by the end of 2020.

Begin Date: 2017 **End Date:** 2019/2020 **Project Budget:** \$ 600,000

Streets and Highways Tracy Boulevard Sidewalk 73175

Description: Tracy Boulevard is an existing four lane arterial with

frontage improvements and a landscaped median. A segment of the road north and south of Gandy Dancer Drive does not have sidewalk on the site. The proposed improvements include construction of Portland Cement Concrete sidewalk on the east side of the street to

conform with existing sidewalks.

Project Manager: Zabih Zaca

Customers Served: Residents

Justification:

This Project will close the missing sidewalk gap to the ACE Train Station parking lot immediately south of the project area.

Comments:

The Project was eligible to receive Measure K funds and staff applied for the grant and SJCOG, acting as the Local Transportation Authority, authorized issuance of Measure K funds from Smart Growth Incentive Program to the City of Tracy in the amount of \$658,581 toward the estimated costs of construction and construction management.

Wastewater Improvements New Outfall Pipeline WW Treatment Plant- Larch Road & Holly Drive 74083

Description: Construction of a second wastewater effluent discharge

pipeline to the Old River. Approximately 3.5 miles of 42" diameter pipe crossing under the Tom Paine Slough and Paradise Cut. The project includes a second diffuser in

the Old River.

Project Manager: Kul Sharma/Ripon Bhatia

Customers Served: City Services Residents

Justification:

The existing 33" diameter outfall pipeline is at capacity is nearly 40 years old, and is constructed of asbestos cement which is a brittle material subject to cracking. The failure of the one current pipeline would result in a significant problem with wastewater disposal and possible WW environmental violations and large fines.

Comments:

Wastewater Improvements WW Line Upgrades - East Side Sewer mains on Grant Line Rd 74084

Description: Fix existing bottleneck on East Side Sewer mains south of

Grant Line Road and MacArthur intersection. Install 4,000 LF of parallel 24 inch line or replace existing line 30 inch

line south of Grant Line Rd.

Project Manager: Ilene Macintire / Zabih Zaca

Customers Served: Business Residents

Justification:

In order to provide adequate conveyance of sewer for the ISP South area, portions of the sewer main have to be upgraded. The existing bottleneck must be fixed.

Comments:

This project will be done in conjunction with the Grant Line Rd reconstruction project, CIP 7352. The project was triggered by the high density ISP South site or Infill projects that need to connect to the East Side Sewer.

Begin Date: End Date: 2020/2021 Project Budget: \$ 5,040,000

Wastewater Improvements Wastewater Recycling, Phase I 74091

Description: Construction of recycled water pump station at the WWTP,

and on Lammers Road near Shulte Road. Along with construction of recycled water pipeline from WWTP to the

pump station near Shulte.

Project Manager: Kul Sharma/Ripon Bhatia

Customers Served: Business City Services Residents

Justification:

The construction of recycled water facilities will allow the City to reduce dependence on surface and underground water for irrigation of street medians, parks, and other facilities.

Comments:

California Department of Water Resources has awarded a Proposition 84 Grant to the City in the amount of \$18 million.

Wastewater Improvements Larch Rd Pump Station Repairs 74106

Description:

Complete new sanitary sewer pump station to replace the

existing pump station.

Project Manager:

Kul Sharma/Ripon Bhatia

Customers Served:

Business

City Services Residents

Justification:

The existing pump station was constructed in approximately 1986. Because of increased flow volume and rates, the existing wetwell is hydraulically undersized. The existing site is too small to accommodate a larger wetwell. An alternate site is located across the street.

Comments:

This project is needed to accommodate current growth. It needs to be operational operational by 2020. The property should be acquired, design should be completed before proceeding for construction.

Begin Date: 2019/2020 **End Date:** 2020/2021 **Project Budget:** \$ 3,271,306

Wastewater Improvements Wastewater Treatment Plant Expansion - Phase 2 74107

Description: Expansion of treatment capacity to handle the additional

inflow resulting from new development in the city. Expansion of pumping, primary treatment, secondary treatment, operations and administration building, paved

drying beds, and digester.

Project Manager: Kul Sharma/Ripon Bhatia

Customers Served: Business City Services Residents

Justification: Expansion of WW facilities is needed to meet the demands of future anticipated development. Funding to be provided

by new development. The expanded facility needs additional space for the operational and

administrative staff.

Comments: Phase IB Project #7449 completed in Apr 08. Costs \$74,700,000.

Begin Date: End Date: 2021/2022 **Project Budget:** \$ 39,000,000

Wastewater Improvements Aeration Diffuser Replacement 74127

Description: Existing diffusers have run out of life and need

replacement

Project Manager: Kul Sharma/Ripon Bhatia

Customers Served: City Services

Justification:

Generally the aeration diffusers have 10 years of life. The existing 3 aeration basins are located at the southwestern part of the WWTP prior to the secondary clarifiers. The fourth aeration basin is located post tertiary treatment and prior to outflow. The aeration basins are full of grit and debris which needs to be removed, cleaned, and flushed.

Comments:

Equipment will be purchased from the vendor and installed in house. Removal of grit and debris will be done by a contractor.

Begin Date: 2018/2019 **End Date:** 2019/2020 **Project Budget:** \$ 400,000

Wastewater Improvements Security Upgrades at WWTP 74128

Description: Fencing, Cameras, lighting upgrades, parking, paving.

Project includes various plant improvements to improve safety and security of the facility. The improvements include installtion new fence at the property boundaries, grading property, security cameras, lighting, and parking

within the secured area.

Project Manager: Ripon Bhatia

Customers Served: Business

Justification:

There has been safety related issues at the WWTP. The intrusions have created a need to install the fence at the Plant Boundaries and grade existing areas to match the with boundary areas. The security cameras and lighting will provide safety and security improvments. In addition, parking within the secured areas are requied to accomdoate the plant staff.

Comments: Will be conducted in phases

Wastewater Improvements Cleanup of Ponds & Berm Strengthening 74137

Description: Remove settled solid deposits from the Pond 1 at the

WWTP and the strengthening of berms around the ponds

area.

Project Manager: Kul Sharma/Ripon Bhatia

Customers Served: City Services

Justification:

Pond 1 at the WWTP facility is full of settleed solids that is reducing the pond holding capacity. The solid deposits at the bottom of the pond need removal, offsite hauling and disposal. Cleaning of the other ponds and strengthening of berms are required to ensure compliance with NPDES permit, integrity of the ponds, and safety of equipment and operators around the ponds.

Comments:

Begin Date: 2018/2019 **End Date:** 2021/2022 **Project Budget:** \$ 2,650,000

Wastewater Improvements FOG Removal & Septage Receiving Station 74138

Description: Install new FOG removal integerated with sewer receiving

station at headwork. Evaluate and rehabilitate existing system and structures at headworks to modify and provide for new

systems.

Project Manager: Kul Sharma/Ripon Bhatia

Customers Served: City Services

Justification:

Due to significant intrusion of fats, oils and grease through the headworks into the treatment process has created several challenges at treatment plant including shutdown of pump stations and clogging of pipes. In addition, the septage receiving station needs to be equiped for monitoring and controlling purposes.

Comments:

Wastewater Improvements Screen & Grit Removal system 74139

Description: Replace screens with a 1) Low maintenance more efficient

screens with effective removal of rags and debris 2) Without delicate side-plates or similar weaknesses and install a grit removal system to prevent any grit from reaching the screens

Project Manager: Kul Sharma/Ripon Bhatia

Customers Served: City Services

Justification:

These screens have been the most troublesome equipment in the WWTP and have been inefficient with removing large debris and rags from the flow. Not only have these screens required too much time and money, also the large debris collects, clogs and causes more work downstream throughout the plant, impacting the treatment

Comments: Improvement/Replacement of screens is critical for operators of the plant

Begin Date: 2018/2019 **End Date:** 2022/2023 **Project Budget:** \$ 2,530,000

Wastewater Improvements New Administration & Operations Building 74143

Description: New concrete or composite structure 8,000 sq ft two-story

building with option of first floor for administrative staff and second floor for operations, design will include analysis for single versus two separate buildings with partial use of the

existing building.

Project Manager: Kul Sharma/Ripon Bhatia

Customers Served: City Services

Justification: New building is needed to house staff by eliminating existing use of rented trailer office. With proposed expansion of

the plant and recycling water existing operations space is adequate. The existing storage building will be dismantled to

provide more circulation in the plant.

Comments: Existing office space is inadequate.

Wastewater Improvements Wastewater Masterplan 74159

Description: The Tracy Wastewater Master Plan is a planning level

document that outlines existing wastewater collection system facilities and upgrades needed to accommodate wastewater system demand within the City's Sphere of Influence under a

fully developed condition.

Project Manager: Paul Verma

Customers Served: Business City Services Residents

Tourists/Visitors

Justification:

The current Wastewater System Master Plan was prepared by CH2M Hill and adopted by City Council in early 2013 to provide a comprehensive planning document that identifies the required improvements to the existing Wastewater System to ccommodate new growth consistent within 2011 General Plan Update. However, recent development patterns and forecasts have revised the growth estimates creating the need for an update to the Wastewater System Master Plan.

Comments:

The master plan update will also reflect changes and refinements in Wastewater system infrastructure planning approaches and new regulatory requirements that have been adopted at the State and local level.

Wastewater Improvements Chemical Disinfection System Replacement & Expansion 74160

Description: Replace existing Chemcial Disenfection system with the

new Chlorine Bleach and Sodium BiSulphate system. The system will accommodate existing and near future

chemical disenfiction needs.

Project Manager: Ripon Bhatia

Customers Served: City Services

Justification:

The existing chemical system is near its terminal life. The currently used chemical systems are extremely hazardous. Most wastewater system in the state has shifted from gaseous system to liquid disenfiction system. The project will help improve safety for the plant and City of Tracy.

Water Improvements Up Flow Clarifier Rehab 75155

Description:

The Upflow clarifier is an important componet of the water treatment process. Coagulation, floculation and sedementation are achevied through the upflow clarifier. The work involves rehab of the concrete structure, replacement of new flo circulation rake, sludge rake, settling tubes and the master support column including the gear box.

Project Manager:

Kul Sharma/Ripon Bhatia

Customers Served:

Justification:

The State required the City to paint and remove all surface rust in the primary clarifier to put back into operation. The City completed a temporary fix (2-4 years) until funds could be appropriated for a full rehabilitation. The original clarifier was installed in 1978. In 1987, an upgrade was made to increase treatment capacity through the clarifier with the addition of settling tubes. This increased plant flow from 10 million gallons a day to 15 million gallons a day. The steel and concrete are from the original construction and is in a state of deterioration. If we do not complete this project, the State could prevent us from using the Clarifier. This would result in a potential loss of 15 million gallons a day of treated water.

Comments:

Some of the cost would be used to add cathodic protection to prevent corrosion in the future.

Begin Date: 2020/2021 **End Date:** 2021/2022 **Project Budget:** \$ 1,500,000

Water Improvements WTP UV Upgrade 75156

Description: The UV system needs a complete upgrade to achieve

State Validation for disinfection credit. This includes a computer upgrade and the replacement of obsolete

components of the UV system.

Project Manager:

Kul Sharma/Ripon Bhatia

Customers Served:

Justification:

The State of California Drinking Water Department requires that all water treated meets stringent disinfection requirements. Along with chlorine, the UV system is an integral part of the disinfection process.

Comments:

UV upgrade needed for validation certification of WTP for 30 MGD capacity from the state.

Water Improvements Water Master Plan 75159

Description: The Citywide Water System Master Plan is a planning

level document that outlines existing water system facilities and upgrades needed to accommodate water system demand within the City's Sphere of Influence

under a fully developed condition.

Project Manager: Paul Verma

Customers Served:

City Services

Justification:

The current Citywide Water System Master Plan was prepared by West Yost Associates and was adopted by City Council in early 2013 to provide a comprehensive planning document that identifies the required improvements to the existing Water System to accommodate new growth consistent within 2011 General Plan Update. However, recent development patterns and forecasts have revised the growth estimates, creating the need for an update to the Citywide Water System Master Plan.

Comments:

The master plan update will also reflect changes and refinements in water system infrastructure planning approaches and water demand/usage factors for some areas and new regulatory requirements that have been adopted at the State and local level.

Drainage Improvements

South MacArthur, Ph 2-From Northern Boundary of Elissagaray Ranch to Connection at Eastside Channel 76059

Description: Improve capacity of 6800 LF of existing V-ditch channel

completed under CIP 7634. The southern 2500 LF of channel will be enclosed in 60" pipe and the bottom of 4300 LF open channel will be widened to create a trapizodal channel with a lined low flow channel to mitigate maintenance issues. Additional 54" pipes will be placed parrallel to existing pipes to increase conveyance under UPRR and into DB- 4.

Project Manager: Ilene Macintire

Customers Served: Residents Business

Justification:

Due to the slow down in development, the ultimate v-ditch will not be built in a timely manner. Therefore, additional improvements are needed to mitigate maintenance issues. This is a SMPA and Plan C project.

Drainage Improvements Detention Basin 2B - Blue Zone, Zone 1 - South Central area 76066

Description: Phase 1: Pump Station, Force Main, & 42" Line

Phase 2: Basin Expansion, 3.3 acres needed for expansion.

Project Manager: Ilene Macintire

Customers Served: Business Residents

Justification:

Westward expansion of existing City detention basin located to the north of the existing Stewart Walker Company industrial property. Will attenuate the increased runoff before its discharge into the existing Central Avenue drainage channel. To provide for the runoff from the DeBord, Cose, & Westco parcels.

Comments: Serves ISP, Infill and Plan C.

Airport and Transit Improvements PAPI Installation and Retrofit and AWOS Replacement 77552

Description: The existing VASI on Runway 30 at the Tracy Airport is

FAA owned, outdated, and in need of replacement. A new 2-box PAPI unit will be installed and all necessary auxillary infrastructure. The existing PAPIs on runways 12, 8, and 26 will also be retrofitted to current FAA power standards. Additionally, the existing AWOS is extremely outdated, difficult to maintain and in need of

replacement. A new AWOS II will replace the existing

AWOS.

Project Manager: Paula Jessup

Customers Served: City Services Residents

Justification:

An FAA Grant application has been submitted to complete the project. Existing VASI on Runway 30 no longer works and needs to be replaced with a PAPI. Existing PAPIs need to have their power supply updated. Current AWOS is obsolete. If the grant is awarded, the FAA will pay for 90% of the work, and the City will have to pay for the remaining 10%

Comments:

This CIP was selected as a priority project by the Transportation Advisory Commission. Should be done ASAP

Airport and Transit Improvements Airport RDA Improvements 77582

Description: Two Restroom Facilities complete with water lines, septic

tanks and leach lines along with minor heating, ventilation and air conditioning (HVAC) and other improvements to the existing buildings at the Tracy

Municipal Airport.

Project Manager: Matthew Brown

Customers Served: City Services Residents

Justification:

The Airport does not have a sewer line connected to the City sewer collection and treatment system. The airport uses porta potty services.

Comments:

On June 20, 2017, City Council adopted a joint resolution approving an agreement between the City and Successor Agency to the Community Development Agency (CDA). The agreement assigned the City the responsibility of retaining, administrating, programming, disbursing and use of the unspent CDA bond proceeds for uses consistent with the applicable bond covenants. As a result, a total unspent excess bond proceeds in the amount of \$2,126,315 can now be used for public infrastructure projects that benefit the former edevelopment area. Per Reso 2018-072 CDA funds were appropriated for this project.

Parks & Recreation Improvements Playground Replacements-Larsen Park 78157

Description: Renovation of playground structures

Project Manager: Richard Joaquin

Customers Served:

Justification:

Playground structures at these locations are at risk of closure because they have reached their life expectancy. Staff is recommending replacing them due to hazards and community complaints.

Comments:

Playground is in need of more immediate attention. Equipment needs to be removed and/or replaced. This project was listed as a priority by Parks Commission in January 2016.

Begin Date: 2018/2019 **End Date:** 2019/2020 **Project Budget:** \$ 250,000

Project Schedule	Expended	FY2019/20	FY2020/21	FY2021/22	FY2022/23	Un-Funded	Total

Parks & Recreation Improvements Legacy Field Site Phase 1D 78164

Description:

Site improvements include earthwork and grading operations, installation of electrical equipment, new concrete paving, fencing, edgebands, sports field and pathway lighting, shade structures, scoreboards, site furnishings, irrigation, and landscape.

Project Manager: Richard Joaquin

Customers Served: Tourists/Visitors City Services Residents

Justification:

The Legacy Fields Sports Complex has been under various stages of construction since Council awarded the first construction contract in October of 2015. In order to fulfull the Council's vision of making Legacy Fields a "destination" facility that attracts more local play and large regional tournaments, Phase 1D is necessary to achieve that goal.

Parks & Recreation Improvements Gretchen Tally Park Phase III 78170

Description: This project is a 4.7-acre expansion of Gretchen Talley

Park. The scope of the project will be determined through a series of public outreach meetings yet to commence.

Project Manager: Richard Joaquin

Customers Served: Residents

Justification:

In December of 2018, the land acquistion of 4.7-acres of land was finalized adjacent to Gretchen Talley Park. The property is zoned "park" land in the City's General Plan and with two prior phases of Gretchen Talley Park already constructed and immediately adjacent, it makes sense to expand the park.

Parks & Recreation Improvements Bikeways Master Plan 78171

Description: The existing Bikeways Master Plan needs to be updated

to reflect the current master plans and provide

development standards for bikeways.

Project Manager: Richard Joaquin

Customers Served: Residents

Justification:

The Bikeways Master Plan should be updated approximately every 5 years. The last update was completed in 2010. Transportation Development Act funds can be used to pay for the plan update.

Parks & Recreation Improvements Playground Replacements-Alden and Yasui Parks 78173

Description:

Replacement of the playground structures have reached their life expectancy. Staff is recommending replacing these structures due to hazards and community complaints. The playground equipment at these parks are highly used. Beyond the loss of "play value" due to sections being closed off, their deteriorating condition is becoming an increasing safety concern. If we do not replace these structures immediately, we may have to close the playgrounds.

Project Manager:

Richard Joaquin

Customers Served:

Residents

Justification:

These projects were listed as a priority project by the Parks Commission in January 2016.

Alden - \$295,000 Yasui - \$295,000

Comments:

Minimal operating costs for adjusting timers on an as-needed basis based on rental needs and responding to any

maintenance related issues.

Begin Date: 2019/2020 **End Date:** 2019/2020 **Project Budget:** \$ 590,000

Project Schedule	Expended	FY2019/20	FY2020/21	FY2021/22	FY2022/23	Un-Funded	Total

301 - General Projects	\$0	\$590,000	\$0	\$0	\$0	\$0	\$590,000

Parks & Recreation Improvements Community Center Expansion Phase 2 78177

Description:

The Tracy Community Center is a 9,030 sq.ft public facility. While used primarily as a rental facility, it is also used for recreation programming by the Parks & Recreation dept. Phase 2 of this project would include items that were value engineered out of what is now referred to as Phase 1. In Phase 1 staff decided to focus on those areas that most impact the customer: the kitchen, the restrooms and flooring throughout the facility (as an add alt). Items such as the acoustic panel dividers for the main hall, makeover of the classrooms into offices was elimated from the project scope.

Project Manager: Richard Joaquin

Customers Served: City Services Educational Community

Residents

Justification:

Council allocated \$200,000 for renovations inside the facility that includes remodeling of the kitchen, restrooms, the small classrooms converted into staff offices, new acoustic panels to divide the large community hall into 3 soundproofed spaces, and new flooring thoughout the facility. While staff was confident in the intial costing of the project scope, the preliminary engineer's estimate by JC Wagner showed that scope to be over budget. The amount requested should allow us to complete the project.

Comments:

A new "home" for Parks & Recreation will also communicate a positive message about the value of this dept. in the community.

Parks & Recreation Improvements Lincoln Park Landscape Improvements 78181

Description: The project will include a new gathering space with

shaded seating, lighting in the library parking lot, new hardscape areas, landscaping and other site amenities.

Project Manager: Richard Joaquin

Customers Served: City Services Residents Tourists/Visitors

Justification:

In March of 2019 a shade structure and picnic area was removed from Lincoln Park due to concerns over structural integrity. The need for a new picnic area now exists. Safety is a major concern ongoing in and around the library.

Comments:

The goal for funding this project is to transfer \$200k from CIP 78177 to start design. Additionally, we would make this a priority Pay-As-You-Go project for Council to fund using Measure V. Lastly, we are applying for a Prop 68 grant which requires no matching, but bonus points are given for internal project funding.
